N. B.—We cannot agree to replace Evergreens free. We will replace them at half price, unless where we furnish large lots to Cemeteries or Parks, and superintend the planting. In these cases we insure the trees to grow.

**Roses**

We wish to state to our patrons that we do not grow Roses, but we can furnish any variety. We procure them from a reliable firm and send out strong, two-year plants and they are in every respect much better than the ones so freely advertised and sent out by mail, that are small, tender shoots, started in a greenhouse and sent out before they have established growth and constitution to stand the shock of transplanting.
